

Books and DVDs available for purchase (Update 3 – 14th Aug 2016)

During the summer of 2015, we at Woollybus acquired a very large collection of books and magazines about buses, trams, trolleybuses and trains, as well as a handful of transport-related DVDs and videos and some car publications.

Due to the sheer size of this collection, we have been gradually adding this collection in batches, and have just completed the addition of the second batch of books onto our web site.

Detailed below are all the books so far catalogued and added onto our web site, with all of these available for purchase. Please also note that in the instance of books, DVDs and videos, unless otherwise stated, our standard postage rate will be Royal Mail 2nd Class for customers within the UK. For overseas customers, we politely request that you contact us to get the best postage rates.

Catalogue	Description	Price
